

Data Loggers for all Pharmaceutical Applications

...Products and solutions of 100% indigenous R&D

Core Technologies

Applications we Cover and Support

A. Validation Applications:

(Short Cycle Logging -few minutes to hours)

Dry Heat Sterilizers,
Autoclaves,
Stability Chambers,
Incubators,
Tunnels etc. (Product Code Vali-DAQ)

B. Long Duration Logging:

(Loss less Data logging for months and years)
Room Mapping of Manufacturing Facilities,
Temperature Monitoring of Deep Freezers,
Refrigerators, etc. (Code Pharma-LOG)

Sensors Supported (and supplied):

Almost all sensors supported without the need for different signal conditioning modules or the restriction of sensor types in a group of channels. Our data loggers are universal - any channel anywhere. Sensors supported,
RTD Pt-100, Pt-1000,
Thermo-Couples J,K,T and E,
Four -20 mA, 0-20 mA, 0-100mV, 1.0 V, 10V.
(Other sensors on order).

Compliances:

US FDA Regulation 21 CFR Part 11,
WHO Norms for Pharmaceutical Manufacturing.
Traceability to NABL
Software meeting standards of IT industry.

Software:

A. Vali-DAQ Report Generation Software

Lethality, F0/Fh computation, with Bar Graph
Temperature plot for all channels

B. Scan-LOG Room Mapping Software

Real Time display, Alarms, Reports, Data
Backup, Archival and much more.

Our Customers:

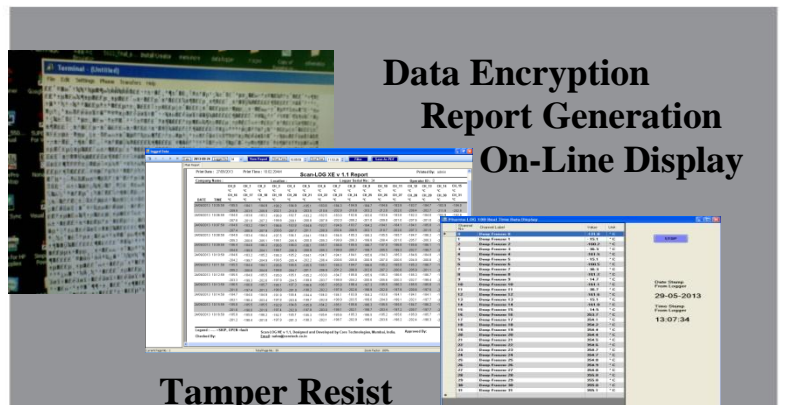

Macleods Pharmaceuticals, Wintac, IPCA, Uni-Jules,
Rusan Pharma, Wockhardt, Kanam Latex, Centaur
Pharma (Life San), Polybond, Wallace Pharma,
Unique Pharma(Nigeria), and many more.

We are...

Core Technologies is a well-known name in data loggers Since 1988. We have a strong R&D base and modern manufacturing set up in Mumbai.

Pharma-LOG 100/16-32 Universal input Data Logger

**Data Encryption
Report Generation
On-Line Display**

Tamper Resist

- Non-stop data logging for months.
- Easy programmability from PC.
- Tamper Resist operation.
- Audit Trails and Digital Signatures.
- Multiple Pass words, Imposter Alarms.
- Local and Remote Alarms, SMS facility.
- Multiple level Data security.
- From small to very large operations.
- Exhaustive IQ, OQ, PQ and SOP docs.
- Sensor cables up to 300 Meters, **One** logger for all your equipments spread over wide area!
- NABL traceability - **Naturally!**
